1. Tour Metal Shop

The committee viewed deficiencies of the shop space and equipment. Discussion about the need for a working and improved ventilation system as currently smoke and fumes fill the shop area when students are welding. The instructor shared the need for five more welders and booths so more students can participate in hands on practice. Mr. Moody explained that, should the committee decide to do so, the goal would be to use some year end funds (if available) to purchase some of the needed equipment. Long-term additional items should be worked into the annual budget process.

2. Donations:

SAHS has received a \$2,000 grant from Somerset Public Health for Move More Kids Program.

The elementary schools have received an \$80,000 grant from the New Balance Foundation for the Healthy Kid Pack Program.

Recommendation: That the School Board accept the above listed donations.
